Local & General

March 15th, Dance to be arranged for.

March 20th, Community Dance, Hopkins' orchestra.

Born—To Mr and Mrs. Alf Howerton on Thursday, Feb 21st, a son.

W. J. Harris is a Calgary visitor this week where he is attending a radio course.

Mrs. W. Harris, Mrs. Cox and Leon Cox were Stirling visitors this week.

Union Work Sox. Just the right weight, 4 pair for 95c, at Campbell's.

Sandy Anderson is opening an office in the building, formerly occupied by B. Maxwell, where he will handle various types of insurance.

Alex. Renaldi, who was operated on for appendicitis at the local hospital on Friday of last week, is making fair progress towards recovery.

Men's Pure Wool Wind Breaker. Real value, to clear at \$1.05 each, at Campbell's.

Ed. Selland is progressing favorably, following an operation at the local hospital on Thursday of last week.

G. Marks, who has been a patient in the local hospital for the past few months, is convalescing at his home.

Men's Rider Pants, cut blue made to measure pants, water shrank and triple stitched, \$1.75 a pair at Campbell's.

J. M. McFieffet and W. Diemert were business visitors in Calgary on Tuesday and Wednesday.

Frank Smith wishes to thank the Ladies' Aid for flowers he received recently.

Miss Martin of the Champion High School staff visited in Warner over the weekend.

Mother's here is good news. Iron cloth school pants for those boys, Size 10 to 18. Look and wear extra good, \$1.75 a pair, at Campbell's.

Milo Badminton club were guests of the local club on Monday evening, the score in games being Champion 16, Milo 1.

Featuring the famous Water Shunk work garments for men, and we're telling you, they are the best Overalls you ever purchased for \$1.95 a pair, at Campbell's.

Macleod Badminton club played in Champion on Sunday. Games played were interesting resulting in a score of Champion 512 points, Macleod 315 points.

P. Gately, J. D. Henderson, H. E. Gill and G. M. Campbell took in the hockey game at Lethbridge on Monday evening, when Medicine Hat and Lethbridge clashed.

Mrs. N. M. St. Peter and Douglas arrived in Williamsburg, Ontario this week, where the latter will undergo treatment with Dr. Locke of that city.

The Badminton season will come to a close on Wednesday, March 6th, when a tournament will be held in Vulcan. Towns included in the tournament are: Nanton, Macleod, High River, Brant, Vulcan, Milo and Champion.

Mrs. J. A. Carlson wishes to thank the ladies of the Royal Purple and the Amity Club for the lovely flowers they sent while she was in the Vulcan hospital.

Good Turnout at

Municipal Meeting

The annual meeting of the ratepayers of the Municipal District of Harmony was held in the Community hall on Saturday, February 23rd, with H. McNaughton in the chair and J. W. Cain acting as secretary.

A motion to the effect that each councillor give an account of money spent in his division was carried. The minutes of the last annual meeting were read and accepted. The financial statement was the chief matter of discussion. In this E. Covell, J. Mannin, H. Horne, B. Munson, Carl Mix, G. Rhodes and Carl Johnson led, drawing replies from A. Miller, reeve and the councillors.

A question regarding money spent for hospital fees and doctor bills was satisfactorily answered. A discussion over the entire municipality entering the hospital areas arose.

Cecil Smith stated that the tax rate would not be over 3 cents per acre. The matter of taking a vote on this question was left to the council.

The question of weeds on graded roads was discussed with some heat by the ratepayers and council. The sentiment of the meeting seemed to be that a bad owner should keep the section of road passing through his property free of weeds. A motion was carried to the effect that the council try and arrange a meeting with the councils of adjoining municipalities and discuss the question of asking the Provincial government to assume whole cost of gravel road passing through the different municipalities.

A discussion over hiring a municipal doctor or doctors again arose, but on being put to a vote the majority present were against asking the council to engage a municipal doctor.

With returning Officer Cain in charge, the following nominations were made:

Division 2—Art. Hopkins. Elected by acclamation.

Division 4—A. J. Miller and R. H. Matlock.

Division 5—W. A. Fitzpatrick and A. L. Sommerville.

Hospital Board—Cecil Smith. The election will be held on Saturday, March 2. The polls will be open from 9 a.m. to 5 p.m.

Fire Destroys Farm Equipment

A week end fire on the farm of Frank Caldwell, completely destroyed the pump house, wind mill and stored articles, resulting in a loss of over \$50.00.

Fire started in the tank heater. Two cars from town helped fight the fire, which for a time threatened other farm buildings. No insurance was carried.

Break Into Drug Store

Burglars entered the rear door of the drugstore on Saturday evening and indications show that they were sited done. Very few other articles were touched, the burglars limiting their theft to apparently necessary articles such as cigarettes, candy, mineral oil, hair tonic and perfume. The loss to Mr. Henderson was estimated at \$20. Police are investigating.

What Are Actual Needs?

Listening to a discussion the other day on quotas and schedules adopted by governmental authorities as a guidance to those entrusted with the heavy and extremely difficult task of dealing with the cases of people who at all times are compelled to look to governments for the bare necessities of life, the question was forced upon our attention: What do we actually need?

There are an enormous and varied number of things we want, and our wants differ as greatly as our individualities differ, but when it comes down to a definite listing of the things we actually need not only to sustain life, but to make living worth living, the number and variety of such needs is comparatively small.

People to-day list as needs scores of things less than a generation ago were not even in existence, or so little known and in use as to be regarded as very great luxuries. For example, unemployed people living in our cities and towns—those called "unemployed" for lack of employment—will go to great lengths to put upon the provision of their basic needs. And they would consider it a great hardship if they were asked to resort to candles, or even the old kerosene lamp, as a means of illumination. Yet their parents got along very well with kerosene lamps and their grandparents and great-grandparents did not feel they suffered any great hardship because they had nothing but candlelight. And throughout the length and breadth of rural western Canada to-day hundreds of thousands of people live in houses with kerosene lamps. But in our cities people now list electric light as an absolute need.

Casting our memories back to boyhood days, thirty, forty, fifty years ago, we recall that our clothing and food requirements, our actual needs, were small and inexpensive compared with what we list as needs now. As a matter of fact, many of our so-called present day needs are not needs at all, but are merely conveniences, luxuries, or comforts we have come to expect. Hundreds of people go camping every year, leave work, we term "vacation" and go without off the winds, and put up with conditions of living, and go without scores of things—and enjoy doing so—which at home they insist upon having as actual needs.

Life, and real living, does not consist in the abundance and variety of the material things we possess. Many people lack most of the things we list as needs, yet they enjoy life, because they are happy, and found life worth the living. They built homes, reared families of sturdy children, saw beauty in their surroundings, and developed character. Their needs were few and inexpensive. And they built nations.

These years of depression are developing two types of people. Out of one group men and women are emerging with stronger, firmer characters. They are more self-reliant, with hammering superstitions burned away like so much dried-up scum. They will not be afraid of anything. They will be the strong men and women who will take the leadership in this world, and who, out of the experiences these years, will profit throughout their lives. The other group, the second type, are those who are content to drift with the tide, to regard themselves as the sole victims of circumstance, ready to sit with folded hands and let others not merely provide them with actual needs, but who demand that these others shall run over and above their needs. With the passing of the depression, members of this second group will find themselves unequipped and incapable of making provision for themselves with the skill that is called upon to make.

People in this second group, ruined their own homes, ruined their health, while the first group, though it is devastating too late they should take steps of themselves. The State must and will provide all people with their basic needs of substance, including shelter, food and clothing when because of the vagaries of nature, or the inability to secure employment, these people cannot earn enough to support themselves. The State must help, and help with needs. And the fact that the day is coming when all people will have to make provision for their own needs, as well as to gratify their desire and taste for luxuries, is something to be reckoned with.

It would be well, therefore, for all people to give serious consideration to what are needs and govern their demands upon their fellow citizens, as represented by the State, accordingly.

Heated Railway Car

New Type Is Developed For Transportation Of Fruit And Vegetables

Canadian National and Canadian Pacific Railways are developing a new type heated car for transportation of fruit and vegetables, the Canadian Agricultural council was told in the report of its transportation committee.

The council instructed its transportation committee to draft a resolution which would ask a portion of any tax imposed to be used for the purchase of new rolling stock by the railways to be used to increase the number of fruit and vegetable carriers.

Col. R. L. Wheeler, Dominion fruit commissioner, described experiments by the railways to develop a new type heated car. The model he described was charcoal heated, with a system of hot-water pipes similar to a domestic heating plant. The council had asked the railways to consider a gas-burner heater, with inside temperatures regulated by the degree of cold outside the car.

Proves That Earth Wobbles

Stars Once Seen Now Do Not Rise Above Horizon

When the astronomers of ancient Greece developed star names and names for them their listed constellations that can now longer be seen from Greece. In this way they supplied Sir James Jeans, the British astronomer, with a series of a scientific test to prove long ago whether they departed this terrestrial planet. Among the constellations named by the men of Greece 2,500 years ago are some which, although visible then, cannot be seen in Greece to-day because they are hidden behind the sun.

The wobble, as it is called, is a movement of the spinning earth in which its axis makes a small circle once in every 26,000 years; in other words, each pole describes a circular path in the heavens at the speed of about 12 miles a minute. This movement is caused by the pull of the sun and moon on the bulging equatorial part our globe.

NOW SORE THROAT EASED IN LESS THAN 3 MINUTES!

Rawness, Irritation Go at Once
Note Directions for
New Instant Treatment

1. Crush and stir 3 Aspirin tablets in a tumbler of a glass of water.

2. Gargle thoroughly—throw head way back—repeat as often as throat demands. Repeat—do not rinse mouth.

3. If you have signs of a head or chest cold take 2 Aspirin tablets—drink a full glass of water. Repeat in 2 hours.

Incredible as it may seem, doctors are now prescribing a pain that relieves raw, painful sore throat in as little as 2 to 3 minutes!

All you do is crush and stir 3 Aspirin tablets in ½ glass of water and gargle twice a day.

After each swallow, gargle so completely no irritating particles are left. Results are immediate. At once soreness is eased—comfortably so.

Everywhere throat specialists urge this fundamental treatment instead of less effective old-time "washes" and "antiseptics." Remember this. And when you have a sore throat, take ASPIRIN. It's made in Canada and all druggists have it. Look for the name BAYER on every Aspirin tablet. Aspirin is the trade mark of the Bayer Company, Limited.

DOES NOT HARM THE HEART

If you have signs of a head or chest cold take 2 Aspirin tablets—drink a full glass of water. Repeat in 2 hours.

THE TENDERFOOT

BY
GEORGE R. RODNEY
Author of "The Coronado Trail",
"The Canyon Trail", Etc.

SYNOPSIS

"You've fallen heir to a half-share in plenty of trouble," the lawyer told Gerald Keene. "The Broken Spur has been sold to a cattle baron, and he's got his son Carr your partner, is drinking himself into ruin."

Dad Kane, the old man and buckles prospect, has now returned to tell Dustin and Spike Goddard, who had grubstaked him, of his discovery of a rich vein of gold and samples of the ore.

Dustin unexpectedly comes along while Stone and Edith are riding fence, and seeing them, stops and talks to Edith. He mentions their dispute about the mine and asks if Edith refuses his proposal with remarks that make Dusty furious. He then suddenly throws him into a pool of water.

Stone tells Creek foreman, about his talk with Dusty Stone, and Crewe goes to Seeto to send a telegram to Gerald Keene. While at Seeto, he sees a man who looks like the man who gives him trouble. Who proves more than a match for his enemies.

Duston learns that Gerald Keene has been sent for, and that Duro Stone has seen the Broken Spur men return. He catches up with Crewe and Dusty, and learns the location of his gold discovery. Dad Kane follows Dusty the mine.

The two head back home, and Dusty shoots Kane. He fires the shotgun on Peyot Gregg, a drug agent who stopped him. He is captured and taken, but does not know whether he was guilty or not. They bury Kane and then leave the country.

Meanwhile at the Hour Glass, Carr, Crewe and Stone speculate as to the meaning of the mine. Stone, who belongs to Dale Kane that Stone had found, Stone thinks of a possible solution, and Crewe and Carr, ride out to Red Water to test out his theory, which proves correct, and they return to the ranch, and Dusty follows the horses, but, unfortunately tries to ride down Stone.

(Now On With The Story)

CHAPTER XIII.—Continued

"It's peev'd," he said sharply, "or have the Indians?" Peyot is the old Apache name. All I know of it is that it is one hell of kind of dope. After a little while it crazes any user . . . distorts his ideas of right and wrong, you know. If you found those half-smoked pipes by the camp fire, you'd be clear that the user was there was using peyot cigarettes. It's against the law, of course."

"Do you happen to know whether old man Kane uses the stuff?"

"I'm damned if he does not," said Jameson. "He gets hung-up on it now. When he comes to town and he gets the Indians to make him for some reason, he'll be sure to bring his gold mine to a man he never saw!"

"What deal will he make with this Gerald Keene? I'll tell you. In some way or other, in some damned deep way, that you couldn't think of, Gerald Keene will lose his mind over the Hour-glass and Sam Duston will own it."

"Talk your game," said Stone laughingly. "This man Duston, that you all credit with superhuman powers,

"You're trying to talk like a man, man! You're talking like a man, not our target. What do you know about this Gerald Keene? I'll tell you. In some way or other, in some damned deep way, that you couldn't think of, Gerald Keene will lose his mind over the Hour-glass and Sam Duston will own it."

"Listen here," he said, "you damn fool, you can't understand me."

"I'm damned if I can't understand you," said Jameson. "I'm damned if I can't understand what you're talking about."

"Find a vein on his own land, trace it under one side and follow it, then he'll lead you to his gold mine."

"Well, it's up this way to me."

"Dustin and Kane have been

at that camp in the hills. If Kane was there then this man Gregg may be able to tell us where we can find him. Tell me that, Carr. What's the idea?" Can a man, who locates an ore-vein, follow that vein when it leads into and under another man's land?"

"I'm pretty sure he can," said Jameson after a moment's thought.

"He can follow a vein that he finds off a man's land. He can't go on a man's land, pick up a vein and follow that. It's got to be done fairly . . . Find a vein on his own land, trace it under one side and follow it, then he'll lead you to his gold mine."

"Well, it's up this way to me."

"Dustin and Kane have found

ore on the Hour-glass. Carr doesn't

know about it. Dustin has bought a

new tent and gear. Peo-

Dustin will use that note to try to

make Edith marry him to save her father.

That note gives Dustin half

ownership in the Hour-glass and will

make Gerald Keene, who owns the

other half of the Hour-glass, a part-

ner of Sam Duston and if, Dunn's

plans work, he will marry Edith

Carr.

"Just what do you want?" de-

smanded Jameson curtly.

"First of all I want to find out

just what it is he's got in his

pocket. He's got to tell us just what

kind of a deal he's made with Dunn-

son."

"I'm not going to tell you any-

thing," said Jameson.

"I'm not going to tell you any-

thing," said Jameson.

Card of Thanks

Mrs. Mary Woolfull takes this opportunity of offering her sincere thanks to her many friends for kindness shown during her stay in the hospital. Also to those who sent the beautiful offerings of flowers. She would especially like to thank Mr. and Mrs. U. S. Alexander, Mr. and Mrs. Fred Clever, Mr. and Mrs. J. M. Moffatt, Mr. and Mrs. F. Sison, Mr. and Mrs. W. H. Jopling, Mrs. Farmer, H. I. Lamont, F. Watts, L. Granlin, Dr. Freeze and the nurses at the hospital.

Don't Miss This

Champion Dramatic Society will present "The First Mrs. Frazer," a comedy in three acts by St. John Irvine, on Friday, March 22nd in the Community Hall. "The First Mrs. Frazer" was a recent London, Chicago and New York comedy hit. Marie Tempest taking the lead in the production when it played in London, and Grace George in New York and Chicago. Members of the local company will all be brilliantly present, with Miss Jean Anderson taking the lead supported by B. F. Cool. Other characters are Mrs. C. Lausch, Sandy Anderson, Miss Buddy James, Harold Stephenson, Donald Campbell and Mrs. Ed. Latiff. It's going to be a wonder, play folks. Be there.

Injured While Playing

Elsieville Stewart, aged 10, oldest son of Mr. and Mrs. Gordon Stewart, returned to Champion Wednesday, after having undergone treatment for an injured eye in the Holy Cross hospital, Calgary. The eye was injured while the child was playing and it was feared for a time that it would have to be removed. However, an operation was performed, the outcome of which is not evident.

Dies Suddenly

Word was received in town Wednesday by G. F. Smith of the sudden death of his son in law, Walter Jones, on Tuesday, February 26th at Los Angeles, California. Death was due to a sudden heart attack.

The Roots of the Wheat Plant

The roots of the wheat plant usually penetrate into the soil for a depth of 5 to 6 feet with a great mass of root system. This marvellous root system comes up for a depth of 5 or 6 feet by harvest time. The roots transform into wheat all the moisture and plant food that is available. It takes between the 1000 and 2000 pounds of water for each pound of wheat. The yield is usually in proportion to the amount of moisture that falls and can be conservatively estimated at 15 bushels per acre. The roots of the wheat plant are short and thick with all its roots. The Seale Grain Company has made a nice photograph of this plant and root. One will be sent free to any person asking for it. Address the Seale Grain Company, Ltd., Winnipeg, Manitoba, Canada.
